EXPERIENCE

Technical Support Engineer

Easycard

Netanya, Israel

04/2024 – present

- Provide **tier-2 technical support** for a multi-platform payment and invoicing system (**desktop, cloud, mobile, API**)
- **Troubleshoot** hardware/software issues with Android-based payment terminals, including connectivity, battery, and transaction errors
- Investigate and resolve issues related to **databases**, local configurations, and third-party integrations
- Collaborate with developers, sysadmins, and external support teams to resolve API, integration, and infrastructure issues
- Maintain **clear communication** with clients via phone, email, and chat; document all support activity in internal CRM

Full Stack Developer

Internship

08/2023 - 01/2024

- Collaborating on a task manager project using JavaScript, React, HTML, and CSS
- **Enhancing user experience** through frontend design modifications
- Work closely with both **frontend and backend code**, utilizing **Redux** for state management
- Managing tasks via Trello and contributing to GitHub for version control
- Participating in regular meet-ups for project review and future planning

Customer Support Specialist

Bynet Semech

Bnei Brak, Israel

01/2023 - 04/2024

- Handle a high volume of appeals, averaging **2000 cases monthly**, promptly addressing inquiries, concerns, and requests for assistance
- Maintain **accurate records** of customer interactions, transactions, and inquiries using CRM systems
- Address customer inquiries, resolve issues, and guide them through **troubleshooting** processes to ensure timely resolution and maximum satisfaction
- Identify and escalate **complex customer issues** to appropriate teams, ensuring **prompt resolution** and **minimizing customer downtime**
